Queen Elizabeth II died “peacefully” at her home in Balmoral, Scotland, on September 8, 2022, Buckingham Palace announced in a statement. She was 96. “The Queen died peacefully at Balmoral this afternoon,” the official statement read. The statement continued, “The King and The Queen Consort will remain at Balmoral this evening and will return to London tomorrow.”

The news came hours after Buckingham Palace announced the Queen was put “under medical supervision” due to “concern” from her doctors. “Following further evaluation this morning, The Queen’s doctors are concerned for Her Majesty’s health and have recommended she remain under medical supervision,” the statement read at the time. “The Queen remains comfortable and at Balmoral.” The palace also confirmed that Prince Charles, Camilla Parker Bowles and Prince William were immediately informed of the Queen’s health. “Their Royal Highnesses The Prince of Wales and the Duchess of Cornwall have traveled to Balmoral,” the palace said.

Venice Marco Polo Airport is located nearly 5 miles (8 km) to the north of Venice. It is the city’s main international airport and the fourth busiest airport in the whole of Italy.

Marco Polo Airport is much closer to Venice than Treviso airport and is better communicated. It is used by 90% of the airlines that fly to Venice.

The airport is christened after the merchant traveler Marco Polo, one of the first Europeans to travel to Asia and China.

There are various ways of getting to Venice from Marco Polo Airport:

The Bus no.5 connects Venice’s Marco Polo Airport and the city center (Piazzale Roma). The bus stops several times before getting to the last stop, so the journey can take from 30 to 45 minutes. A one-way bus ticket costs € 8. However, for the same price, you can take an ATVO bus, which is slightly faster.

A single-journey costs € 8 and you can get the tickets at the ATVO ticket offices and in the automatic ticket machines in the baggage claim area.

The water taxis can fit a maximum of ten people. They are extremely expensive and are only worthwhile if you are traveling with a large group. A ride from Marco Polo Airport to Venice is over € 100.

There are many cities with great style. But when it comes to modeling, the Big Four are the fashion capitals of the world: New York, Paris, Milan, and London.

These cities of fashion have a significant influence on international fashion trends. They're home to influential designers, the most important fashion weeks, and prominent fashion magazines, along with countless trade shows, exhibitions, and award shows.

If you're a model who wants to work in high fashion, set your sights on these four cities. But remember: these cities aren't places to start your career. Build up experience and a portfolio working with a reputable modeling agency before heading to one of these cities to catapult your modeling career into its most successful stages. London's fashion influence dates back to the Elizabethan era, and even now, it's not uncommon to see oversized Elizabethan collars and ruffs on London runways. But London's style has come a long way since the 16th century. Today, the city has an international reputation for being creative and trendsetting, as well as combining fashion influences from around the globe

The first explosion happened after 08:00 local time.

I was broadcasting from the BBC's live position, overlooking St Michael's Golden-Domed Monastery, when I heard a loud noise from the sky. It's extremely rare for helicopters or aircraft to fly over Kyiv, so any sound coming from the sky immediately gets people's attention.

I looked up, and I saw what looked like a missile. Then, a massive explosion, followed by plumes of smoke. It came from the direction of the city's famous glass footbridge, a tourist landmark in the city centre near the Dnipro River, not far from the monastery.

There has been a sense of normality in the capital recently. Kyiv had not been attacked for a long time, and fighting was limited to distant parts of the country.

The attacks - Russia's reaction to Saturday's explosion that hit the only bridge linking Russia to Crimea - will also be seen as a message that nowhere in Ukraine is safe.

As I write this, the air raid here has again gone off.
